This list is intended to assist ordering providers in providing ICD-10 Diagnosis Codes as required by Medicare and other Insurers. It includes the most commonly found outpatient diagnosis (generally without complications), but is not complete. This list was compiled from the ICD-10-CM 2015, as well as the Medicare Regulations and Manuals issued or authorized by the Centers of Medicaid and Medicare Services. An ICD-10-CM book should be used as a complete reference. The ultimate responsibility for correct coding belongs to the ordering provider.*
