**Re: SARS- CoV-2 Antibody Testing for **NATURAL AND/OR VACCINATED RESPONSE****

The Path Lab now offers two different SARS-CoV-2 antibody tests:

- **SARS-CoV-2 Antibody Total - Natural Response (8706)**
- **SARS-CoV-2 Spike (S) Protein Antibody Total - Vaccinated or Natural Response (8707)**

**NOTICE: It is essential to indicate which test is needed for your patient so the correct test is performed.**

Additionally, insurance does **NOT** cover the costs of both tests; therefore, we would like to offer the antibody profile below as a price break for Direct-to-Consumer orders/patients. The cost for **both** antibody tests for patients **without** insurance is \$74.

- **SARS-CoV-2 Spike (S) Protein and Total Antibody Profile (8708)**

Remember that some *immunocompromised* patients may **not** produce SARS-Cov-2 antibodies. Consider this when referring to the test result interpretation table below. Results should correlate with the specific patient's clinical situation. Follow the interpretation guidelines on the CDC's website at [www.cdc.gov/coronavirus](http://www.cdc.gov/coronavirus).

| SARS-CoV-2 Antibody Total, Natural Response (8706) | SARS-CoV-2 Spike (S) Protein Antibody Total, Vaccinated or Natural Response (8707) | Result Interpretation  |
|--|--|--|
| Negative   | Negative   | Never had COVID-19 and has never been vaccinated                                   |
| <b>Positive</b>                                    | Negative   | Had COVID-19 naturally   |
| Negative   | <b>Positive</b>  | Was vaccinated   |
| <b>Positive</b>                                    | <b>Positive</b>  | Had COVID-19 naturally and has been vaccinated<br>- OR -<br>Had COVID-19 naturally |

Please visit our website [www.thepathlab.com](http://www.thepathlab.com) for more information about COVID-19 testing at our laboratory.

If you have any questions, please contact Nicho Bourque at [nbourque@thepathlab.com](mailto:nbourque@thepathlab.com) or 337.312.1280.
